

Descriptions

The Doctoral Consortium is an opportunity for PhD students to discuss and to obtain feedback on their ongoing research with / from experienced researchers in the field of computer science. The aim is to share cutting-edge and modern practical knowledge at each research focus.

Goals:

- Getting knowledge on the latest researches in the major of Computer Science.
- Getting knowledge on the latest state-of-the-art and the implementations in each Computer Science related research focus.
- Getting knowledge on the latest modern practical skills on each Computer Science related research focus.
- Broadening knowledge and point of view variance in research topics in the major of Computer Science.
- Giving valuable suggestions to young scientist participants in terms of the conducted research as well as open problems in each Computer Science related research focus.

Events

Requirement for presentation:

1 set material of research presentation

- Presenter should provide .ppt and .pdf file.
- Presentation is 15 minutes including question & answer session.
- Please send the material to the Committee via e-mail (icacsis@cs.ui.ac.id) no later than October 25th, 2018.

1 set poster of the same research

- The poster format is in English or in Bahasa Indonesia with Size of A0 (16 x A4) or A1 (8 x A4)

ICACSYS 2018

Yogyakarta, Indonesia | October 27-28 th, 2018

ICACSYS 2018 provides an international forum that brings together those who are actively involved in the field of Computer Science and Information Systems to report on up to the minute innovations and developments to summarize the state of the art, and to exchange ideas and advances in all aspects of systems engineering, human machine interface, and emerging applications. **The proceedings of ICACSYS 2011-2017 have been indexed by IEEE Xplore and indexed by SCOPUS**
