

# SEMINAR

**Wednesday, October 31<sup>st</sup>, 2018 // 13.00 -15.00 WIB**

**Ruang Rapat Besar, Gedung A, Lantai 2, Fasilkom UI Depok**

**Speaker:**

**Assoc. Prof. Yuta Nishiyama**

**Theoretical Life Science Laboratory**

**Nagaoka University of Technology, Japan**

**TOPIC:**

**Introduction to Nagaoka University of  
Technology (NUT)**

## **Abstract:**

UI and NUT has signed academic and educational agreement and exchanged students each other. Indeed, our students had stayed at Faculty of Engineering during this September and completed a short project. However, it might be not so close to Faculty of Computer Science. Therefore, my mission is to make a stronger tie with your faculty. In particular, I hope to promote a student exchange through this presentation. I will give you a general talk about NUT, and also talk about my department, Information & Management Systems Engineering, and my research, Theoretical Life Science Laboratory, in brief.
